

## General Points

- Use the course material located at:
  - [C# @ ACC](#)
- Program12 can be completed using content from the following chapters:
  - Welcome! through Database Operations
- Create a Windows Forms App (.NET Framework **not** Core)

Suppose, a global software development company named *Dynamic Solutions, Inc.* received your resume and may be interested in offering you a C# development position on their team. To assess your qualifications and to compare your skills with those of the other applicants, the company has asked you to provide a sample of your work. That is Program12. Use this opportunity to demonstrate the knowledge and skills you have acquired.

# Requirements

**Requirements (these are the requirements to identify by number):**

1. Include a label or output: “This is Program12”
2. Include a label or output with a grade you would award yourself for Program12 and why.
3. **Include a label or other method to display a statement explaining your experiences with Program12. Make this authentic (minimum of 2-3 sentences).**

---

**TEST – TEST – TEST** your application to ensure it meets requirements.

- Use the list above and the common requirements as a checklist.
- Not meeting all requirements = 0 points for the assignment.
